ABOUT US

ATECO was established in 1987 and has developed its business of Marketing & support of Engineering products over the years from a single product line to a multi-facet business. ATECO's business interest spans into Generators, Physical & Electronic Security, Banking Automation, Business & Home Automation.

ATECO, has evolved as a Systems Integrator due to its strength in Engineering practices in all related disciplines including Design, Application Engineering, Planning, Quality Assurance, Project Management, Installation, Application Programming, Commissioning & Product Support.

OBJECTIVES

- Marketing of Engineering Products in Power, Security, Banking, Building & Home Automation.
- Undertaking Turnkey projects.
- Providing superior Technical Support from application, tendering, approvals, and installation to commissioning.
- Providing highest Quality Assurance.
- Providing effective After-Sales Product Support

MISSION STATEMENT

To achieve profits and growth for the company by providing products, services and solutions of the highest quality and deliver more value to our customers that earns their respect and loyalty towards marketing the following:

- Security products, systems and services.
- Power & Electronic products, systems and services.
- Self Service Banking products, systems and services.
- Home, Hotel & Building Automation products, systems and services.

GOAL ACHIEVEMENT

This goal is to be achieved by:

- Representing companies who are, or are likely to become market leaders and who are committed to developing business in the U.A.E. over a long term and are competitive.
- Providing customers with excellent technical support in application engineering, parts, service and contracting.
- Providing necessary funds and financial facilities.
- Recruiting qualified personnel and motivating them.
- Implementing computerized Sales Management, Project Management and Accounting/ Inventory Control systems.
- Managing these resources.
